

## SCIENION's two-day user training

April 26 - 27, 2017

Berlin, Germany; SCIENION AG, Volmerstr. 7b

Registration Ends April 21, 2017

### Welcome

**Who should attend:** This training is aimed at users of SCIENION's sciFLEXARRAYERs that want to refresh their information or learn new features as well as new users who haven't been trained by SCIENION\*.

The training sessions are divided into presentations and practical hands-on sessions. During practicals participants will have access to several sciFLEXARRAYER models. The focus of the course will be put on how to optimize sample dispensing. Bring your samples to the training, experienced SCIENION scientists will help you to find ideal dispense settings during the two day course.
