

SCIENION is the leading manufacturer of ultra-precise, robust, high performance dispensing automation equipment within the life-science and diagnostic field. Our systems are used from early R&D activities to industrial high throughput manufacturing of innovative diagnostic devices and biosensors. We also offer assay development and contract manufacturing services, offering a spectrum of full solutions involving the full manufacturing process.

Scienion UK is recruiting a Field Applications Scientist for its ultra-low volume dispensing Team. Reporting to the Business Development Manager, this role will specifically involve implementing Scienion's ultra-low volume dispensing technologies from R&D concepts through to full scale production. It will require a flexible approach, with the role also contributing to Cellenion applications and contract manufacturing.

### **Field Applications Scientist – Chichester, United Kingdom**

#### Key Duties:

- Contribute to the research and development of Scienion technologies, both internally and beta-site testing.
- Attendance of exhibitions, conferences and workshops.
- Presenting at exhibitions and workshops.
- Participate and lead presentations of Scienion technologies to prospective customers.
- Perform demonstrations and applications work at customer's sites and at the Scienion Chichester facility.
- Report writing.
- Assisting with customers installations, specifically with training of users.
- Offer on-going proactive support to customers with their specific applications needs.

The successful candidate will have a BSc degree or preferably PhD in a Life Science discipline and have experience of laboratory work flows. Further, they will be able to quickly understand new techniques.

This person will have a business perspective, work well in teams and have a willingness to travel. The candidate must be computer literate. A full driving licence is required.

The attractive package is competitive and commensurate to experience and qualifications. It will include a car allowance and a pension scheme.

If you are seeking a challenging role in a fast-growing professional company, please apply complete with full C.V. to:

Dr. Julian Kirby, Business Development Manager, Scienion UK Ltd.
